& Learn Event

Find Relief with Ketamine Infusion

Join Certified Registered Nurse Anesthetist Shawn Tulp for an educational session to learn more about the ways ketamine infusion can help individuals with many conditions, including but not limited to:

- treatment-resistant depression
- severe anxiety
- post-traumatic stress disorder
- obsessive-compulsive disorder
- migraine headaches
- chronic pain

Attendees will learn what ketamine is, how ketamine infusion works, and the many ways it can benefit patients and improve quality of life and well-being!

Wednesday,
February 27, 2019
12:00 to 12:30 PM

Van Diest Medical Center
Cafeteria Conference Room

We will also be recording this event via Facebook Live. Join us on-line by liking our VDMC Facebook page and tune in at 12:00 pm!
