It is no secret  
that America is  
in the grips of an opioid crisis.  
According to the Centers for  
Disease Control and Prevention,  
in 2015, opioids were involved  
in 33,091 deaths. Nearly half  
of all those opioid overdose  
deaths involved a  
prescription opioid  
([www.cdc.gov](http://www.cdc.gov)).
